SHIPPING & LOGISTICS SERVICES

All you have to do is send an export order for a product located in Egypt and our export team will value the product at a very competitive price in addition to providing shipping and clearance service to the customer port.

Export Services

We have relations with several factories in Egypt, with which we cooperate with them, marketing their products and providing customers who want to deal and import Egyptian products.

We know very well that Egypt imports many food products from some countries and we deal with Egyptian and non-Egyptian companies in ensuring the supply chain of products and providing customs clearance service and internal transportation as well as providing stores for customers if required to do so.
